THE YAMUNA IN DELHI: RIVER OR DRAIN?

[WATCH THE FULL VIDEO HERE](#)

Rahul Gandhi visited the Yamuna River in Delhi to discuss its pollution with environmentalist, Bhim Singh Rawat. He criticised the Delhi government for making empty promises and allowing the Yamuna to become a sewage drain. Further, he emphasised that the Yamuna is a living entity deserving respect for sustaining lives. He also spoke with boatmen of the river who shared how the pollution has affected their livelihoods.

At a rally in Bawana, Rahul Gandhi criticised Arvind Kejriwal for failing to fulfill his promise to clean and drink water from the Yamuna River. He noted that while Delhi residents must drink dirty water, Arvind Kejriwal lives in luxury and misleads the public.

SUPPORT BEYOND OUR HOSPITAL WALLS

MY VIEWS

During my visit to AIIMS, I witnessed patients and their family members sleeping on cold pavements—without even basic drinking water or sanitation facilities. While AIIMS Delhi provides excellent and affordable medical care, our support must extend beyond hospital walls. I have written to the Health Minister, J P Nadda, and Delhi Chief Minister, Atishi Singh, requesting adequate shelter provisions for poor patients and their families. I have also requested for a review of the health system to ensure patients don't need to travel across the country to access quality medical care.
