

# The UNSTOPPABLE IDEA

The elephant in the room is that **90% of India**, OBCs, Dalits, Adivasis don't play the game, they're not even in the game. The caste census is one of three ideas, it's a simple exercise to understand how lower castes have integrated into the Indian system. There are two other components, one is the idea of a socio-economic survey - a social, economic and financial understanding of different communities - and the other is to look at India's institutions - healthcare, education, media etc.- and get a sense of how **90% of our population** is participating in them. This is now an unstoppable idea. The question is not about caste, religion or hindutva, the question is about fairness.

@RahulGandhi

The BJP has been spreading lies about my remarks in America.

I want to ask every Sikh brother and sister in India and abroad - is there anything wrong in what I have said? Shouldn't India be a country where every Sikh - and every Indian - can freely practice their religion without fear?

As usual, the BJP is resorting to lies. They are desperate to silence me because they cannot stand the truth. But I will always speak up for the values that define India: our unity in diversity, equality, and love.
